# Skaneateles Long-Term Flood Resiliency for Communities: A Watershed Management Approach

# DEPARTMENT OF EMERGENCY MANAGEMENT

JOANNE M. MAHONEY, COUNTY EXECUTIVE DANIEL H. WEARS, COMMISSIONER
JOSEPH RINEFIERD, DIRECTOR of FIRE

## **Definition of Emergency Management**

The managerial function charged with creating the framework within which communities reduce vulnerability to hazards and cope with disasters.

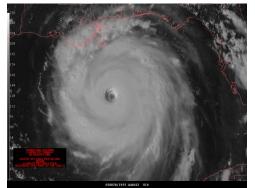

"All Hazards Mitigation & Prevention, Preparedness, Response and Recovery"

## **Emergency Management**

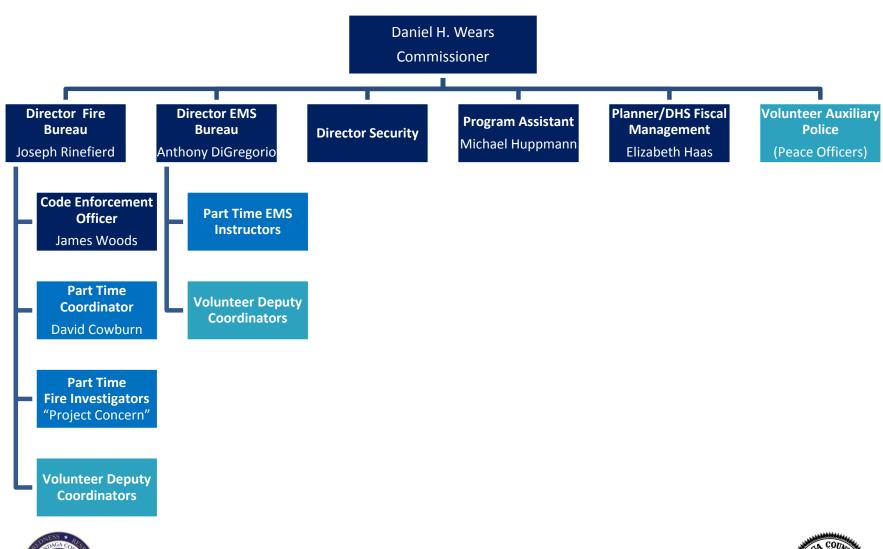

Our mission is to ensure life safety and preservation of property through a cycle of emergency planning and preparedness, along with multi-agency coordinated response and recovery.

The Department of Emergency Management provides comprehensive, coordinated response and recovery for our Citizens and Community by providing training and coordination of County-wide fire and emergency medical services, and by partnering with government agencies, community and volunteer organizations. Additionally, the Department of Emergency Management develops and coordinates procedures for the continuity of government and its functions during emergencies and disasters.

# FLOODING

## **National Weather Service Terminology**

#### Flash Flood

A flood which is caused by heavy or excessive rainfall in a short period of time, generally less than 6 hours. Also, at times a dam failure can cause a flash flood, depending on the type of dam and time period during which the break occurs.

#### **Flash Flood Warning**

Issued to inform the public, emergency management, and other cooperating agencies that flash flooding is in progress, imminent, or highly likely.

#### Flash Flood Watch

Issued to indicate current or developing hydrologic conditions that are favorable for flash flooding in and close to the watch area, but the occurrence is neither certain or imminent.

#### **Flash Flood Statement**

A statement by the NWS which provides follow-up information on flash flood watches and warnings.

#### **Urban and Small Stream Flooding**

Flooding of small streams, streets, and low-lying areas, such as railroad underpasses and urban storm drains. This type of flooding is mainly an inconvenience and is generally not life threatening nor is it significantly damaging to property.

#### **Urban and Small Stream Flood Advisory**

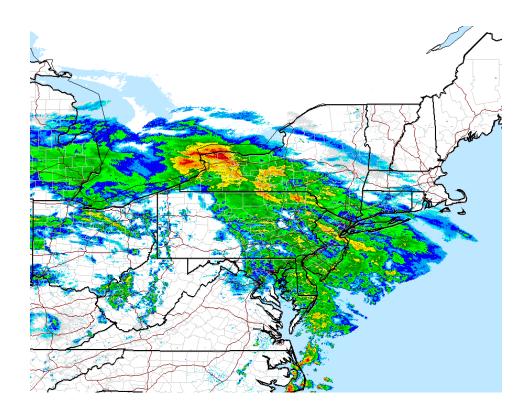

This advisory alerts the public to flooding which is generally only an inconvenience (not life-threatening) to those living in the affected area. Issued when heavy rain will cause flooding of streets and low-lying places in urban areas. Also used if small rural or urban streams are expected to reach or exceed bankfull. Some damage to homes or roads could occur.

## **Preparedness and Prevention**

# EMERGENCY OPERATIONS CENTER

## What is an EOC

"An EOC is a specific incident facility established to coordinate response to major emergency incidents or events."

#### The Purpose of the EOC

The EOC's purpose is to coordinate incident information and resources for a jurisdiction's management.

- The EOC must receive, analyze and display information about the incident to enable Executive decision-making.
- The EOC must find, prioritize, deploy and track critical resources.
- The EOC must enhance decision making, communication, cooperation and coordination.
- Coordination (Inter-agency)
  - Necessary for an effective and efficient response
  - As a whole can accomplish more than as individuals
  - Use of agency resources outside the normal scope of business

#### **Responsibilities of an EOC**

- Information Collection, Evaluation and Display
  - EOC is a clearinghouse
  - Knowledge Management is key to coordinating resources and making policy decisions
  - All in the EOC need access to this information
- Establishment of Priorities
  - Critical when resources are limited
  - Accomplish the most good with available resources
  - Fundamental priorities
    - Life Safety
    - Incident Stabilization
    - Property Conservation
- Resource Management
  - Not possible without ongoing accomplishment of other responsibilities
  - Essential to the success of incident management

Avoiding duplication of resource orders
