of Health**

Drinking Water Infrastructure Project Funding Programs

**2019 Local Leaders Conference
Ellicottville, New York
April 2-3, 2019**

Monika King, P.E.
Bureau of Water Supply Protection
New York State Department of Health
518-402-7650
Monika.King@health.ny.gov

Topics Covered

- Drinking Water State Revolving Fund (DWSRF)
- Water Infrastructure Improvement Act (WIIA) & Intermunicipal Grants (IMG)
- Emerging Contaminants WIIA & IMG
- Emerging Contaminants Project Planning Grants (ECPPG)

DWSRF - Program Overview

- Provides low-cost financial assistance (Loans and Grants) for drinking water infrastructure projects
- Administered by EFC and DOH
- Operate on the Federal Fiscal Year (FFY): **October 1 to September 30**
- Intended Use Plan (IUP) and information at www.efc.ny.gov

DWSRF - Types of Financing

Short-term

- Interest-free or market-rate loans
- Up to 5 years
- Provide funding for design and construction

Long-term

- Up to 30 years
- Subsidized rate loans, Market rate loans, Interest-Free Loans and Grants
- Usually once construction is completed & costs finalized

DWSRF - Hardship Program

- Assistance for financially disadvantaged communities
- Must meet “Hardship” eligibility criteria
 - Public Health Priority – based on project score
 - Economic Need – based on median household income (MHI)
- Interest-free Loans or Grants
- Maximum grant award is 60% of total project costs up to \$3 Million

DWSRF – Program Eligibility

Eligible Systems

- Community water systems - public & private
- Non-profit, non-community public water systems (ex. schools)

Eligible Projects

- New/upgrade/replace infrastructure to comply or remain in compliance with federal or state health standards
- Source, transmission, treatment, storage, pumping, distribution, metering, controls, security.....
- Public water system creation/extension

DWSRF - Public Health Priority Ranking Criteria

Priority Ranking Criteria

- Acute public health risks
- Chronic/long term risks
- Infrastructure needs

Scoring Factors

- MCL Violations
- Sanitary Code Violations
- System Reliability/Dependability Issues
- Financial Need

DWSRF – Program Accomplishments

Since Program Inception in 1996

Executed over \$6.5 billion in project financings, including:

- \$500+ million in 0% loans to disadvantaged communities
- \$365 million in grants to 281 disadvantaged communities
- 448 public water systems received DWSRF assistance

NYS Water Infrastructure Improvement Act (WIIA)

NYS Intermunicipal Water Infrastructure Grants Program (IMG)

- State grants for drinking water and clean water infrastructure projects
- WIIA created in 2015 with \$400 million for 3 years
- CWIA - Added \$1 billion to be used over multiple fiscal years commencing in 2017
- CWIA also included IMG, providing at least \$150 million, for projects that serve multiple municipalities
- Administered by EFC and DOH

WIIA - Program Summary

WIIA

- Grant up to 60% of eligible net project costs
- Maximum grant = \$3 Million

Intermunicipal Grant Program (IMG):

- Project must serve multiple municipalities
- Grant up to 40% of eligible net project costs
- Maximum grant = \$10 Million

WIIA / IMG – Program Eligibility

Eligible Applicants = Municipalities

Municipalities:

- County
- City
- Town
- Village
- District Corporation
- County/Town Improvement District
- School District
- Indian Nation or Tribe
- Public Benefit Corp. or Authority

Eligible Projects:

Infrastructure projects defined as eligible by the DWSRF program

WIIA / IMG - Evaluation Criteria

- Protection of public health
- Financial Need
- Community Support
- **Readiness of project to move forward**

WIIA / IMG – Application Requirements

Requirements for Complete WIIA Application:

- Submit Engineering Report to DOH
- Complete State Environmental Quality Review (SEQR)
- State Historic Preservation Office (SHPO) acknowledgement letter
- Smart Growth Act Compliance
- Bond or Board Resolution Adopted
- Completion of water district formation (if applicable)
- Intermunicipal Agreement (for IMG projects)

WIIA / IMG – Program Accomplishments

➤ **Total Grants of >\$785 Million Awarded since December 2015 for DW and CW projects**

➤ **Drinking Water Awards**

- 2015: \$24 Million for 12 projects
- 2016: \$82 Million for 51 projects
- 2017: \$119 Million for 73 projects
- 2018: \$152 Million for 69 projects

Total DW = \$377 Million for 205 projects

Emerging Contaminants

Drinking Water Infrastructure Grants (EC WIIA)

- **\$185 Million** in grants for drinking water infrastructure projects that protect public health by addressing **Emerging Contaminants**
- Projects must address:
 - perfluorooctanoic acid (**PFOA**), or
 - perfluorooctane sulfonate (**PFOS**), or
 - **1,4-dioxane**

Emerging Contaminants

Drinking Water Infrastructure Grants (EC WIIA)

- EC WIIA – grants of 60%, up to \$3 Million
- EC IMG – grants up to 40%, up to \$10 Million
- Must be for drinking water infrastructure project that addresses Emerging Contaminants (source, treatment, distribution, etc.)
- Applications were due January 11, 2019
- EC WIIA grants not yet awarded

Emerging Contaminants Project Planning Grants (EC PPG)

- Up to \$1,000,000 in grants for planning and development of an engineering report for projects that address **Emerging Contaminants** (PFOA/PFOS/1,4-dioxane)
- Planning grants up to \$50,000 each
- Engineering report funded through this program can be used to seek financial assistance for construction of the project from the DWSRF, WIIA, IMG or other funding programs.
- Applications were due December 14, 2018
- EC PPG not yet awarded

WIIA & IMG Program Requirements

- **All** awarded projects must comply with the following state requirements:
 - ✓ Environmental Review (SEQR/SHPO)
 - ✓ Smart Growth
 - ✓ MWBE/EEO
- Awarded projects **with SRF financing** must also comply with the following federal requirements:
 - ✓ American Iron and Steel
 - ✓ Davis-Bacon Federal Prevailing Wage
- Awarded projects **without SRF financing** must also comply with the following state requirements:
 - ✓ Service-Disabled Veteran-Owned Business (SDVOB)
